ALICE RAP
Addiction and Lifestyles in Contemporary Europe Reframing Addictions Project

**Goal:** to strengthen scientific evidence to inform the public and political dialogue and to stimulate a broad and productive debate on current and alternative approaches to addictions.

**Vision:** Promote well-being through a synthesis of knowledge to redesign European policy and practice to better address the challenges posed by substance use and addictive behaviors.

**Mission:** Advance synergy among sciences that address substance use and addictive behaviors, through a five-year program of European trans-disciplinary research.
ALICE RAP: Overview

5 year European research project.

Co-financed by the European Commission.

More than 150 scientists from 25 EU countries and 29 different disciplines.

7 Areas and 21 Work Packages: integrated multidisciplinary research strategy.

Area 5: study of the governance of addictions in a broad sense

Governance view  Governance Practice  Redesigning Governance
ALICE RAP: Governance View

**Goal:** present the different typologies of the governance of addictions.

**Key questions:**
- How many models of governance of addictions exist in the EU?
- Can we identify the best model of governance of addictions for the EU?
- Which will be the governance of addictions in the future?

Governance of addiction of the 27 EU MS + Norway: **Study process**

- Documenting
- Analyzing
- Clustering
Study Process

- Documenting
- Analyzing
- Clustering
- Differences between models
- Paradigmatic cases
- Validating
- Review
- Outputs

**Theoretical Frameworks:** Esping-Andersen welfare States, OECD Well-being

- Case study: 27 EU countries + Norway.
- Goal: present the different typologies of the governance of addictions.
Expected outputs

Present the different models of governance of addictions in the EU (4-5 clusters).

Link the models with the international context and two theoretical frameworks: Esping-Andersen welfare state & OECD well-being.

Detect the model which can be used as a point of departure for redesigning the governance of addictions.
